PROFESSIONAL SUMMARY

Information Technology undergraduate with hands-on experience in full-stack development using Java, Spring Boot, React.js, REST APIs, and MySQL through internships and projects. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and SQL. Interested in software development, problem-solving, and building reliable applications.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript
Web Development: HTML, CSS, React.js, Spring Boot, REST APIs
Databases: MySQL, SQL
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming
Tools & Platforms: Git, GitHub, VS Code

EXPERIENCE

Full Stack Web Development Intern — Mist Solutions May 2026

- Contributed to full-stack development of web application features across frontend and backend layers.
- Collaborated with the development team to implement and test new functionality in a live project environment.

Junior Web Developer Intern — NaNLogical Consultancy Services Pvt. Ltd. Jul 2024 – Sep 2024

- Learned web development fundamentals from scratch, covering HTML, CSS, and JavaScript.
- Built simple web pages, practicing page structure with HTML, styling and layout with CSS, and basic interactivity with JavaScript.

PROJECTS

PlaceTrack – Placement Drive Management System | *React.js, Java, Spring Boot, MySQL*

- Developed a web application to manage college placement drives and student registrations.
- Implemented login, role-based access, and invitation-based registration.
- Integrated REST APIs to manage placement drives, student applications, and notifications.

Employee Management System (Role-Based Access Control) | *Java, Spring Boot, Spring Security, JWT, React.js, MySQL*

- Built a full-stack Employee Management System with JWT authentication and role-based access for Admin, Manager, and Employee users using Spring Security.
- Developed REST APIs for employee management, attendance tracking, leave management, and payroll, with secure access and BCrypt password hashing.
- Developed a React.js frontend with role-based dashboards, protected routing, search and filtering, integrated with the Spring Boot backend using Axios.

Smart Expense Tracker | *React.js, Spring Boot, MySQL, REST APIs*

- Built a full-stack expense management application enabling users to track income, expenses, and account balances.
- Designed and implemented REST APIs with Spring Boot, integrated with a React.js frontend for a seamless user experience.

EDUCATION

Bachelor of Technology in Information Technology Expected: Jul 2027
Sri Krishna College of Technology, Coimbatore | CGPA: 8.12

Higher Secondary Education (HSC) Completed: Apr 2023
St. Michael Girls Higher Secondary School, Tenkasi | Percentage: 95.3%

CERTIFICATIONS

- Data Structures & Algorithms using Java — NPTEL Elite Certification
- Java Foundation Certification — Infosys Springboard
